Art and Nature: Exploring Nature through Art for Teens
In this outdoor hands-on class students will learn to see art in nature by identifying colors, patterns, textures and rhythms that we’ll find in the natural areas surrounding Wilson Park. Students will then create mixed media art projects involving painting and collage that are inspired by their discoveries. Students will become familiar with local flora and fauna, learn about their purpose, and discover how their experience can translate into art making. They will then create a work of art while being taught painting and collage techniques. This fun and explorative class will be based at the covered pavilion in Wilson Park.

Photography Workshop:
Manual Exposure
Do you have a digital SLR and want to move beyond photographing in an automatic or semi-automatic mode, like “P” or aperture priority? You’re a lot smarter than your camera and, with a little guidance, can guide it to an exposure that you like more than it might come up with on your own, particularly when you are photographing a scene with significant dynamic range. We will decide as a group where we are meeting, perhaps at an area garden or woodlands. After reviewing why and how you might want to shoot in manual mode and arming you with strategies for quickly exposing for a photograph the way you want it to look, you will get to practice and get feedback. Come with a digital camera and accessories (such as tripod and flash) with which you are familiar.

Comprehensive Bicycle Transportation Plan Update

About

The Town of Carrboro is a bikeable community because of its longstanding commitment to providing bicycle infrastructure: both on- and off-road projects, in partnerships with local transit agencies, and as a core component of its regulations for new developments. Despite these efforts, there are opportunities to make the environment even more bicycle-friendly for everyone.

The Town has participated in the League of American Bicyclists’ Bicycle Friendly Community program since 1999 and its bronze-level designation had inspired the Town to frame its first comprehensive bicycle plan around actions that could help lead to higher level designations. In 2010 the Town was awarded with a silver-level designation - the first to achieve this ranking in North Carolina.

Focusing on that same approach by identifying the opportunities and constraints for bicycling in Carrboro, the Town will utilize this planning process again to establish recommendations and identify priority projects.

Background and Purpose

In 2018, the Town of Carrboro was awarded a planning grant from the North Carolina Department of Transportation (NCDOT) to update its comprehensive bicycle transportation plan. The overall goal of the Project is to provide a framework for NCDOT and the Town to enhance bicycling as a mode of transportation for residents and visitors alike, improving access, connectivity, and safety. Additional goals include promoting healthy active lifestyles, diversifying the local economy, and reducing transportation-related greenhouse gas emissions. Through the planning process we will identify key routes, connections, opportunities, and obstacles, and prioritize areas for future implementation.
